Enter Infinity

A National Campaign Concept · 2026

Presented for the Marketing Head, Vietnam role

by Mai Nguyen (Mia)

WHY NOW

40 years happens **once.**

Vietnam's gamers and creators are trading up to premium hardware and riding the AI-PC wave — ready to pay for a brand with a story. GIGABYTE owns a **40-year heritage rivals can't copy.** Claim 2026 now — or ASUS ROG / MSI will.

Premium shift

Buyers trading up across laptops, GPUs and high-refresh displays.

AI-PC wave

AI workloads spark a fresh upgrade cycle across the whole line-up.

The 40th moment

Non-renewable — own the heritage narrative before rivals do.

THE CHALLENGE · diagnosis illustrative — to validate with GIGABYTE data

Strong product. Under-told story.

Where GIGABYTE is now

- #3 top-of-mind — after ASUS ROG & MSI
- Gaming-gear recognition below actual DNA
- AORUS premium tier (15–25 mil) under-showcased
- Gen Z / esports awareness still weak

The 40-year opportunity

- Single-shot narrative moment — tell the innovation story
- High brand equity, convertible to Q4 sales
- Unlocks T1 co-fund (Intel/AMD/NVIDIA) — they want this moment too
- Capture 40,000+ CRM leads for 2027
